## 223 Mars Street

Update On Mars Street

March has seen a large majority of the designated stock relocated to our new Warehouse in Mars St.

As such, we are essentially operating out of there on a daily basis for those products. It is providing us much easier access to product & a more efficient working space which is beneficial to both our staff & the customer.

The next step is to reorganise certain areas in the main Warehouse which as previously mentioned will provide a better working environment for all.

The final step is relocating some staff so we can fully operate as we require from Mars St, just waiting on some finishing touches.

# ZANDA PRODUCT UPDATES
