# James Hardie™ Frame Construction Clinic

Thank you to everyone who attended the very first James Hardie Construction Clinic on Wednesday 12th October! It was fantastic to see many of you out there and we hope you found the session informative and enjoyable.

We noticed there was a lot of questions on the day about the construction and usage of James Hardie products. If you feel your question wasn't answered completely or you have another question you feel you would like answered by the James Hardie team, please submit your questions to [marketing@jbs1.com.au](mailto:marketing@jbs1.com.au).

The James Hardie team will then be able to give you the answer you require, or further demonstrate.

As mentioned, just by attending the event, you were in the running to WIN great prizes including -

- 1 x \$2000 Paslode Tool Kit
- 2 x \$500 Crown Perth Vouchers.

**Congratulations to Luke Carver (Dlux Builders) and Peter Banks (Peter Banks Building) who have each won a \$500 Crown Perth Voucher!**

Please note, Paslode Terms and Conditions of entry for the major prize state the winner will be drawn after November 1st 2022. We will notify the winner once this has been drawn.

# INSULATION AVAILABLE AT JBS

## Earthwool R4.0 Ceiling Batts (430 & 580 wide)

- TwinTech® - smooth finish on both sides
- High thermal performance - year round comfort
- Sound absorbing
- Non-combustible
- Saves energy - lower energy bills
- No added formaldehyde
- Soft to handle and install
- 50 year warranty
- Compression packed - more product per pack
- Odourless.

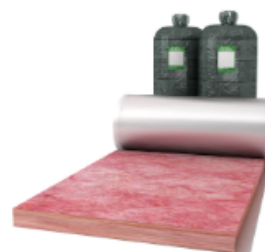

## R3.5 Fletcher Ceiling Batts (in both 430 & 580 wide)

- Provide excellent thermal insulation properties, keeping homes cooler in summer and warmer in winter
- Improve the energy efficiency of a home to deliver energy cost savings.
- Manufactured using an innovative technology which makes Pink Batts® softer to touch compared to traditional glasswool insulation.
- Maintain their firmness ensuring products remain in place for ongoing thermal performance.
- FBS-1 Glasswool Bio-Soluble Insulation® - safe to use.
- Non-combustible.
- CodeMark™ certified.
- Manufactured from up to 80% recycled content.
- Australian made.
- Backed by a consumer lifetime warranty.

## R4.1 Bradford Ceiling Batts (only available in 430 & 580 wide)

- Made for Australian conditions
- Reduces heat transfers in your home
- Improved comfort all year round
- Saves on energy costs
- Reduces greenhouse gas emissions
- Low allergen
- Meets the highest Australian insulation standards
- 70 year performance warranty
- Environmentally sound, made from up to 80% recycled glass
- 100% bio-soluble
- Non combustible
- Backed by CSR - serving Australia since 1855
- Bradford is Australia's most trusted insulation company for 80 years

## R1.3 55mm Fletcher Permastop (equivalent to Anticon)

- Provides excellent thermal insulation properties, keeping homes and buildings cooler in summer and warmer in winter.
- Minimises the risk of condensation.
- Reduces energy usage to deliver cost savings.
- Excellent acoustic properties - reduces rain noise.
- Faced with industry leading Sisalation® reflective foil laminate.
- Available in customised lengths to improve installation efficiencies.
- FBS-1 Glasswool Bio-Soluble Insulation® - safe to use.
- Good Environmental Choice Australia (GECA) certified.
- Codemark certified.
- Manufactured from up to 80% recycled content.
- Satisfies Bushfire Attack Level (BAL) requirements of 0-40 in roof applications and 0-FZ in wall applications (in accordance with AS 3959 - 2009).
- Australian made.

## Say Hello to Our New Commercial Decking Range! Tough and Extremely Resistant Composite Decking for Any Commercial Project

Newtechwood is excited to announce that the new NewTechWood Commercial decking range is now available to order. Suitable for any type of decking project and available in three sought-after colours (Blackbutt, Ipe and Antique) it is a tough, incredibly durable decking board and comes in two different profiles:

**US71H (210mm x 36mm) and US49H (138mm x 25mm).**

**US71H**

**US49H**

### The Commercial Range Is Carefully Crafted To Provide Extra Protection for Commercial Projects

In addition to the polymer protection (also featured in the residential decking ranges), the commercial boards are equipped with a specially designed hard-cap embossed finish, featuring the latest technology. This unique finish delivers an unmatched level of protection, offering scratch resistance, stain resistance and extreme longevity.

The commercial composite decking is ideally suited for high-traffic areas, including boardwalks, marinas, jetties, hotels, restaurants, hospitals, office buildings, mining camps, parks, playgrounds and all public open spaces!

### Why Is the Commercial Range an Excellent Choice?

- Durable - with a hard-capped finish, extremely resistant
- Low-maintenance - no oiling, sanding or painting, ever!
- Fully protected - 360 capping around all four sides
- Scratch-resistant
- Moisture resistant
- Slip resistant - P5 slip rating (the highest rating possible)

# NEW PRODUCTS

## Corinthian Doors are proud to launch our new range of internal doors: The Manhattan Collection.

These eight interior doors will provide a modern industrial style to any renovation or new build. Made from sustainably sourced timber, The Manhattan Collection features an on-trend slim profile and is available in a range of designs and glazing options to suit applications throughout the home.

Stocked in standard sizes, and with a curated range of hardware to match, The Manhattan Collection makes achieving industrial-chic easy. It's also easily trimmed and adjusted to suit most openings in new builds or renovations, and it can be retrofitted to existing openings.

Modern and stylish, The Manhattan Collection can be adapted to any internal application throughout the home. Available in eight designs, glazed in clear or translucent glass and made from sustainable timber, Manhattan is a great alternative to internal steel doors. To view the technical specifications, click on the button below.
