OCTOBER 2024

06 Modern Coastal

Trade Handbook Summary

Find out how Neil Hipwell from Futureflip used **Linea™ Weatherboard** in his latest Modern Coastal build in Byron Bay.

Design Features

Light, airy and inspired by our Australian beach heritage, Modern Coastal style offers a contemporary take on traditional coastal design with laid-back spaces, modern minimalism and crisp white weatherboards.

Flexible roof: An angular skillion roof, bold gable or flat roof style evokes a contemporary coastal architectural style.

Weatherboard exterior: The facade typically features crisp white cladding, such as weatherboards, adding coastal charm without the maintenance of traditional timber.

Light colour palette: Whites, light greys, beach beiges and muted pastel tones evoke a fresh and airy coastal palette.

Indoor-outdoor connection: Interior and exterior spaces are seamlessly connected through sliding glass doors, louvers and screens.

Case Study: Neil Hipwell, Futureflip

'Time frame was a key consideration on this build. The fact that Linea™ Weatherboard and Hardie™ Groove is primed and ready to paint allowed the team to clad the entire house in a week, with scaffolding down in two weeks once the painting was complete.'

— Neil Hipwell, Futureflip.

Recommended Products

Hardie™ Brushed Concrete Cladding
Axon™ Cladding
Linea™ Weatherboard

Installation Tip

When installing Linea™ Weatherboard, complete a board set out pre-build and adjust the architectural drawings to suit the boards, so they work perfectly with window frames and ceiling heights. Once installed, use aluminium corner soakers for a clean, crisp finish.

Build the look with myHardies™

1. Design Features

Discover the design features and construction elements to create the Modern Coastal design that your clients are looking for.

2. Installation Tips

Linea™ Weatherboard is an Australian Made, fibre cement product which won't warp, twist or bend – a key consideration when building in coastal areas.

3. Case Study

Find out how Neil Hipwell from Futureflip used Linea™ Weatherboard for a contemporary, high-end take on traditional coastal design.

**Johns Building Supplies thanks you for your continued support and as per normal we endeavour to keep these increases to a minimum. Due to the tight margins that we generally operate under, these increases cannot be absorbed.

PRODUCT RETURNS

JBS realises that mistakes are part of our industry & when it is ours we rectify in the most timely efficient way we can to minimise any impact on the customer.

Where a customer has made the error we will assist as best we can, but we are bound by some considerations.

- If the product is made to order or a non-stocked item it is up to the discretion of the manufacturer if these goods can be returned. Any costs enforced by the manufacturer will be passed to the customer in full.
- Product being returned must be in a resalable condition (as determined by JBS and/or the manufacturer)
- **Highlighting metal door frames, these must be “clean” (not have any mortar residue) & must also have the spreader bars still attached.**
- There are costs involved in the return of goods & whilst we keep these to a minimum they will be applied at all times.
